Beware of the Sharks! Anticipate a moving, motivational presentation in the afternoon that will bring together the importance of your career and your value to the children in your district.

The final portion of the day will be devoted to "Common Sense" situational responses. Everyday throughout the year, the phones ring and CWA offices hear unbelievable scenarios and are expected to do the incredible and still maintain the most defensible. All of this must be accomplished in seconds and may have an impact on a young person for a lifetime.

Several scenarios will be presented. A panel of experts from throughout the state will not only call upon their wisdom in addressing the challenge, but will focus on process that you can take back to your district and immediately implement. This promises to be exciting!

The "Academy" and "Conference" will showcase CWA publications and material from district, county and state resources. There will be a special focus on collaborations between law enforcement and schools. You will get to meet the "shakers and movers" in the CWA
