# PREPARING FOR AND WORKING THROUGH!

## WORKSHOP FOLLOW-UP

We want to thank all of our members and friends who attended this important workshop in person and on zoom! Thanks to all of our presenters

We have placed their presentations on our website at:

### The Presenters

**TOM STEELE**

#### ***Director of School Safety Planning, Campus Safety Group***

Mr. Steele's resume includes serving as a police sergeant/SWAT Team Leader, a Consultant II for the Division of Student Services at the Los Angeles County Office of Education, and as the Director of Student Services in two school districts. He is an expert in campus safety planning/response.

Mr. Steele's presentation was powerful and comprehensive. His power point is a presentation that should be viewed by all district and school site administrators. Mr. Steele emphasized is the importance of safe school planning and the fact that it is a compliance issue with an annual requirement!

### The Presenters

#### **Andrew Flores**

**Director, Office of Emergency Management**

**UNIVERSITY OF CALIFORNIA RIVERSIDE**

#### **Tim Walker**

**Deputy Superintendent**

**Riverside Unified School District**

#### **Gary McGuire, Ed. D.**

**Director, Pupil Services - Retired, Riverside Unified School District**

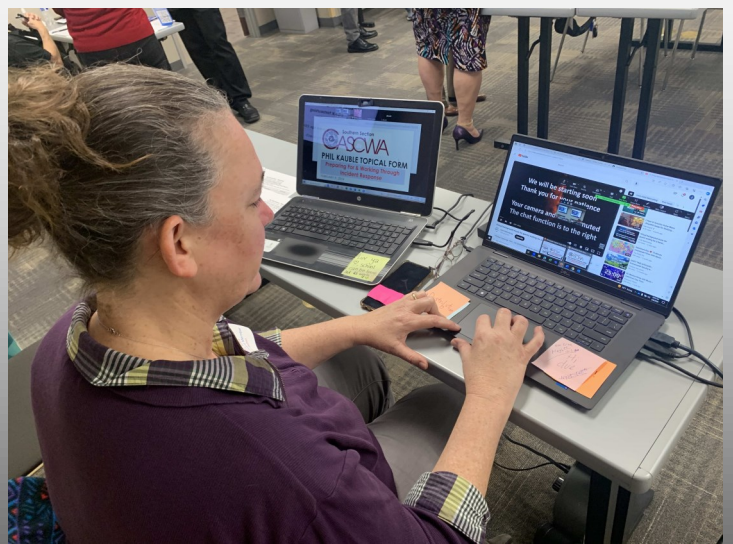

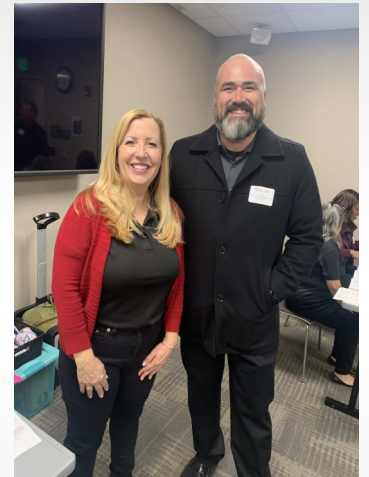

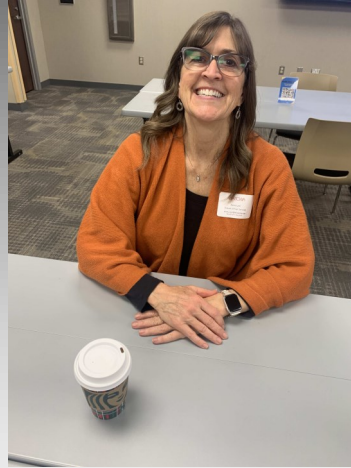

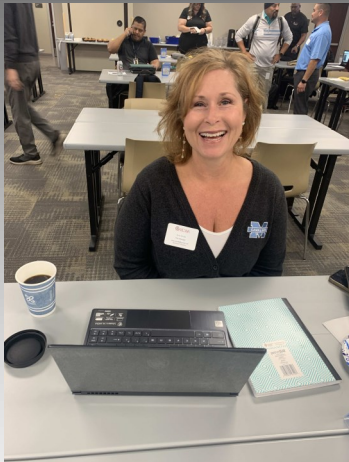

The actual police officer, principal, and CWA who addressed a terrible hostage situation at an elementary school resulting in the swat team shooting the father after four hours was relived by the presenters.

Thanks to their SEM's training and site preparations, their plan was implemented successfully. The presentation went into specific details of their response. Their decisive action include issues, such as master keys, classroom layout, movement of students to an adjacent park, getting porta-potties, central command center, parent release location and much more! Each of the presenters are every day heroes!
